Cayman Islands enjoys 0% Taxation, no auditing and no paid up capital requirement.

The Cayman Islands were colonised from Jamaica by the British during the 18th and 19th centuries and were administered by Jamaica after 1863. In 1959, the islands became a territory within the Federation of the West Indies. When the Federation dissolved in 1962, the Cayman Islands chose to remain a British dependency. The territory has transformed itself into a significant offshore financial centre. With no direct taxation, the islands are a thriving offshore financial centre. More than 65,000 companies were registered in the Cayman Islands as of 2017, including more than 280 banks, 700 insurers, and 10,500 mutual funds. A stock exchange was opened in 1997. Nearly 90% of the islands' food and consumer goods must be imported. The Caymanians enjoy a standard of living comparable to that of Switzerland.
