Alipay is the most widely used third-party online payment service provider in China. With over 100 million daily transactions and over 520 million active users. Its primary product is a digital wallet, Alipay Wallet, which also includes a mobile app that allows customers to conduct transactions directly from their mobile devices.

Alipay is a must-have payment method for any business looking to reach a critical mass of Chinese shoppers both home and abroad. It is available in 70 markets and has already been adopted by over 1million retail stores worldwide.

Benefits of supporting Alipay include:

Access to over 520 million registered users worldwide , with a large Chinese clientele

A solution with the most advanced encryption technology for secure transactions

A frictionless experience that utilises standard, one-click and barcode payments

A great substation of Western-dominated payment systems
